ExxonMobil Pipeline Announces Open Season for Delaware Connector

SPRING, Texas – ExxonMobil Pipeline Company announced today it will conduct a binding open season for the Delaware Connector, designed to carry 480,000 barrels per day of crude oil and condensate from production areas in Eddy County, New Mexico, to the company's terminal in Wink, Texas. Interested shippers will have the option of tying into the pipeline, which is currently under construction. Operation of the Delaware Connector is planned to start up in early 2020.

The binding open season commitment period will begin September 13, 2019, and close on October 14, 2019, at 5 p.m. CDT.

Interested parties must execute a confidentiality agreement. Requests for additional information and the Confidentiality Agreement may be directed to delawareconnector@exxonmobil.com

About ExxonMobil Pipeline Company

ExxonMobil Pipeline Company transports crude oil, refined products, liquefied petroleum gases, natural gas liquids and chemical feedstocks through more than 4,000 miles of operated pipeline and facilities in California, Illinois, Louisiana, Montana and Texas.
